

## PRO-ACTIVE DRIVER TRAINING

As a Land Transport Risk Management consultancy and training organisation, The Barbaro Group (BG) is focussed on enabling sustained safe performance in the use of motor vehicles. Our aim is to address the behaviours that support safe driving; *what else can I do to make driving safer for everyone.*

We use our unique approach, the Six Steps to Pro-Active Driving™, to enhance the skills that drivers need to use every day in order to be safe.

Our Pro-Active Driving course is aligned to two nationally accredited Units of Competence:

- TLIC1051- Operate Commercial Vehicle
- RIIVEH201D- Operate Light Vehicle

This training covers:

- Enhancing participants knowledge, skills and attitude pertaining to road safety
- Applying the principles of the Six Steps of Pro-Active Driving
- Demonstrate the ability to spot on road hazards, assessing the risk, and making the change to ensure safe operations
- Demonstrate the ability to drive utilising low risk driving techniques

Our professional trainers have a significant depth of knowledge in regards to motor vehicle safety. Our training rooms are located in Hazelmere and we will provide the necessary resources.

If you have an organisational need, we can mobilise trainers to any location to conduct this training. Additionally, we can customise the course to ensure that it meets your operational requirements.

This one day course consists of in class theory, followed by a practical on road application of skills. A written and practical assessment is required and on the successful completion of this course, participants will be issued with a Statement of Attainment for the training.
