

YOUNG DRIVERS PROGRAM

This program is designed to enhance the safety of young drivers that have recently obtained their drivers licence.

The Barbaro Group (BG) has an innovative approach to developing the skills, knowledge and attitude of drivers. We focus on behavioral change and adopt the outlook of “what else can I do to make driving safer for everyone”.

This Pro-Active focus is of significant value to young drivers. Influencing them positively at an early stage of their driving will reduce the likelihood of at risk behaviours whilst driving a vehicle.

The BG Proactive Driver course focuses on developing and maintaining the skills that the driver uses every day- driving the car. It is a risk management approach where we emphasize hazard identification and the formulation of management plans to avoid the need for emergency driving manoeuvres. Utilising our Six Steps to Pro-Active Driving™, we enhance the capability of the driver to avoid hazards in all driving environments.

This training covers:

- Understanding the safety issue
- Six Steps to Pro-Active Driving
- Basic vehicle maintenance and serviceability

This training consists of theory component and on road practical application of the theoretic principles. The course is usually conducted out of our training venue in Hazelmere and is led by our very experienced trainers.

Participants in this non accredited training will be issued with a Certificate of Attendance.

BG will provide a vehicle for this training.
