

4WD TRAINING

The focus of this training is to apply a risk management approach to operating a 4wd vehicle in off road conditions. We also apply the principles of the Pro-Active Driving to this training to enhance the safe operation and recovery of vehicles in difficult terrain.

This course is suitable to those who are required to operate a 4wd vehicle as part of their daily role and are likely to encounter off road driving situations.

As a Registered Training Organisation, The Barbaro Group (BG) offers training aligned to the following nationally accredited units of competence:

- TLIC2025 Operate 4wd Vehicle
- RIIV305E Operate and Maintain 4wd Vehicles

This training covers:

- Industry Specifics and requirements
- Pro Active Driving Principles
- 4wd Characteristics
- Operating Off Road
- Recovery Techniques

BG can conduct this training from our training rooms at Hazelmere and we will provide the necessary resources for the training. Alternately, if you have an organisational need, we can mobilise trainers to any location to conduct this training*.

This training course consists of in class theory, followed by a practical application of skills in a suitable environment. A written and practical assessment is required for each unit of competence and on the successful completion of this course, participants will be issued with a nationally accredited Statement of Attainment for the training.
